PROFILE

International student at Fontys University of Applied Sciences in Eindhoven, currently studying Infrastructure Engineering and Cybersecurity minor. During my studies, I have been solving case studies with IT related issue that have assisted me to put in practice what I have learn in the classroom and find effective and efficient solutions to these cases.

Very motivated to keep learning and discovering about IT and cybersecurity. In addition, being proactive by learning coding languages such as Python and completing CTF (Capture the Flag) challenges. Looking for opportunities in cybersecurity, IT, or a related field where I can use the skills learned through time and in the practical labs to use them in real world scenarios.

LANGUAGES

- ✦ Spanish (Native)
- ✦ English (Advanced)
